Set-CsClientVersionPolicy		

QUESTION 25You have a Skype for Business Server 2015 infrastructure that contains an Enterprise Edition front end pool. You plan to add the following servers and roles to the existing infrastructure:

- Edge Server
- Archiving role
- Monitoring role
- Persistent Chat Server

You need to add Microsoft SQL Server servers to the existing Skype for Business Server 2015 infrastructure. The solution must not use the existing SQL Server Back End Server.What is the minimum number of SQL Server servers that you should add? A. 1B. 2C. 3D. 4 Answer: A QUESTION 26A company plans to allow users to sign into Skype for Business by using either Skype for Business 2015 or the Skype for Business mobile app on various mobile platforms (iOS, Android, and Windows Phone).Skype for Business mobile users must be able to access conversation history and scheduled meetings.You need to enable mobility access for Skype for Business Server 2015 for external networks.On the Reverse Proxy server, which two services should you publish? Each correct answer presents part of the solution. A. Exchange Web ServicesB. Skype for Business Internal Web ServicesC. AutodiscoverD. Skype for Business Phone Access URL Answer: CD QUESTION 27Drag and Drop QuestionYou support Skype for Business clients and servers in your customer's company network. All computers are members of a single Active Directory Domain Services (AD DS) domain named contoso.local. The single front-end Skype for Business Server 2015 server is configured to support a Session Initiation Protocol (SIP) domain named contoso.com.You configure Skype for Business to support users from a new SIP domain named proseware.net.The users of the new SIP domain report that the Skype for Business client is able to connect to the Skype for Business server only after manual configuration. Users of the Contoso.com SIP domain are able to connect to Skype for Business server automatically, both internally and externally.You need to restore the internal and external automatic discovery features for the users of the proseware.net SIP domain.Which fully qualified domain name (FQDN) should you add to the subject alternative name (SAN) for each certificate? To answer, drag the appropriate FQDN to the correct certificate request. Each FQDN may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content

FQDN

- discoverinternal.proseware.net
- discoverinternal.contoso.local
- discover.proseware.net
- discover.contoso.local
- discover.contoso.com

Answer:

FQDN	SAN entries
discoverinternal.proseware.net	SAN for internal Autodiscover Service URL: discoverinternal.proseware.net
discoverinternal.contoso.local	
discoverinternal.contoso.com	
discover.proseware.net	
discover.contoso.local	
discover.contoso.com	

QUESTION 28Hotspot QuestionYour network contains an Active Directory Domain Services domain named contoso.com. The domain contains a Skype for Business Server 2015 infrastructure that has the Persistent Chat feature configured. Persistent Chat is hosted by a Front End pool named pcpool. You need to configure a chat room named Announcements to meet the following requirements:

- Allow only the user named user1@contoso.com to post messages to Announcements.
- Prevent a message named (b) (7)(F) from being posted to the chat room.

How should you configure the relevant Skype for Business Management Shell command? To answer, configure the appropriate parameters for the command in the answer area.

Answer:

```
Set-CsPersistentChatRoom -Identity pcpool.contoso.com/Announcements
```

Managers
Presenters

Type: Normal
Privacy: Closed
Privacy: Open
